

# Fasciavent™ Continuous Soffit Vent

**DESIGN FEATURES:** Unique double leg channels hide raw/rough edges of soffit material for clean look and helps prevent vent from being pulled up into subfascia as happens with old-style hat-shaped vents. Installs at face of rafter. Small width allows builders to use with very tight soffits which could save a considerable amount of money.

**MATERIAL:** Extruded rigid PVC, industry-standard, durable, chemically resistant product designed for outdoor weatherability.

Available in 26 most popular James Hardie® Siding and Soffit colors with ColorPlus® technology. Specify color code using Color Palette on page 3.

**NOTE:** Slight color variance lot to lot

**WARNING:** Use light or pastel paint colors only on Tamlyn PVC or Sherwin-Williams Vinyl Safe™ Paint. Use of dark color paint will cause deformation. Tamlyn vinyl products are not warranted if painted with dark color paint.
