

Xtreme Trim™ Vertical Batten Reveal

DESIGN FEATURES: Unique design authentically duplicates the look of a wood batten without the maintenance headaches while serving as a rustproof flashing between HardiePanel® Vertical Siding. Eliminates wood batten piece that will split/rot over time.

MATERIAL: Custom die-extruded from heavy duty, 6063 T-5 extruded aluminum alloy with proprietary coating that protects against harsh weather conditions and allows for paint adhesion.

Available in 26 most popular James Hardie® Siding and Soffit colors with ColorPlus® technology. Specify color code using Color Palette on page 3.

NOTE: Slight color variance lot to lot

16' length available as special order
