All parts are 10' Length unless otherwise indicated

Tamlyn's Perforated Horizontal Reveal features **strategically placed perforations** that allow moisture to drain, preventing buildup and reducing the risk of damage. This innovative one-piece solution **simplifies installation, reduces material costs**, and delivers a **sleek, seamless aesthetic without compromising performance**. The durable aluminum construction offers excellent corrosion resistance, while a variety of **finish options** provide added design flexibility and a high-quality appearance.
